## **We are committed to improving the health outcomes of Children and young people in Surrey**

We pledge to work in partnership, both locally and nationally, with children, young people and their families.

Our Pledge is that:

1. Children, young people and their families will be at the heart of decision-making,  
With the health outcomes that matter most to them taking priority.
2. Services, from pregnancy through to adolescence and beyond, will be high quality, evidence based and safe, delivered at the right time, in the right place, By a properly planned, educated and trained workforce.
3. Good mental and physical health and early interventions, including for children and young people with long term conditions, will be of equal importance to caring for those who become acutely unwell
4. Services will be integrated and care will be coordinated around the individual, with an optimal experience of transition to adult services for those young people who require ongoing health and care in adult life
5. There will be clear leadership, accountability and assurance and as the lead commissioner for children's health services in Surrey we will work in partnership with other organisations for the benefit of children and young people.
